Steam

nounˈstēm\n
1. The invisible vapor into which water is converted when heated to the boiling point.

ThermaSol Steam

nounˈθər-mə-sälˌˈstēm\n
1. The daily luxury of being enveloped by the warm serenity of mist in the privacy of your own home.

History of Steam

Steam therapy has been used for thousands of years to promote physical well-being. First adapted by the Turks and Romans, steam therapy produces a moist heat, which is thought to have therapeutic benefits for the cardiovascular and respiratory systems.

Today you can find a version of a steam bath or steam room in almost any culture, from the Russian banya and the American Indian sweat lodge to the Finnish sauna and the Turkish hammam. In the United States, steam rooms are typically found in luxury spas or gyms, but thanks to modern technology and greater consumer awareness, steam showers are becoming an increasingly popular amenity in private residences.
Discover the Benefits

Since the time of the Greek and Roman empires, medical practitioners have advocated for the health benefits of steam therapy.

**Detoxification** – The soothing warmth of steam helps open pores. When one begins to sweat profusely, the skin on the body can release toxins from everyday living.

**Stress Relief** – The heat and moisture combination in steam rooms offers a relaxing atmosphere to calm the mind and lower stress levels.

**Respiratory Health** – Those with respiratory problems enjoy steam therapy because it has been known to help soothe throat irritation, loosen phlegm in the lungs and loosen mucous in the nose.

**Muscle Relaxation** – Steam showers generate heat, which in turn helps aching muscles relax. Widening blood vessels help release tension by allowing more oxygen to flow through the muscle tissue.

**Skin Rejuvenation** – Steam has been known to hydrate skin pores and open them up so that toxins can be flushed out. More efficient blood circulation also gives skin a healthy glow.

**Better Sleep** – There has been significant scientific data detailing the correlation between steam therapy and quality sleep patterns. Relaxing for just 20 minutes at the end of the day in a steam shower may help to regulate the body’s core temperature and increase blood flow.

**Overall Wellness** – Many individuals have attested to the positive effects steam showers have on their mental health, including such things as helping to relieve depression and anxiety.
The Science of Steam

Numerous scientific studies conducted over the last 20 years support centuries of traditional steam use.

- According to the National Center for Biotechnology Information (NCBI), steam inhalation alleviates the symptoms of cold and nasal congestion. The study was conducted at the Common Cold Unit at Harvard Hospital and published in the “British Medical Journal” in 1989.

- A research study performed at the University of Munich’s Institute of Medical Balneology and Climatology also found that steam therapy is useful to those with asthma, allergies, bronchitis and sinusitis.

- A study conducted by H.I. Robins at the University of Wisconsin found that the "mood states of cancer patients following whole-body hyperthermia show a significant improvement in depression." This was attributed to the increased B-endorphins, the same endorphins released with exercise.

- Long-term steam room use may help lower blood pressure and improve heart function, according to researchers at the Department of Internal Medicine and Biocenter at the University of Oulu in Finland.
Why ThermaSol is the Industry Leader

**Lifetime - Factory Limited Warranty**
Warranty: PRO and SSA – an industry first. Only from ThermaSol. After the in-home warranty is up, send the unit to the factory and ThermaSol will repair the failure, including parts and labor.

**Infrared Sensing Technology** (patent pending)
Reads temperature more accurately and much faster than standard contact temperature sensors. Available with the MicroTouch and ThermaTouch controls.

**SmartSteam™** (patented)
The most desired feature of any steam shower system! You won’t see this cutting-edge technology, but you will feel it! The ultimate in temperature control and energy conservation. See page 26 for more information.

**PowerFlush**
Specifically engineered to purge calcification build-up from the inner tank. This unique system uses a combination of household water-line force (40 to 80 lbs.) and specially designed inner tank “speed slots” to increase the water velocity. This concentrated thrust of water pressure effectively sweeps the bottom of the tank, removing build-up.

**FastStart™ Technology** (patented)
Steam in seconds, not four to eight minutes! For vacation homes, this feature can be enabled/disabled using a ThermaTouch or Signature Series controller.

**Whisper Quiet, Constant Steam at a Constant Rate** (patented)
Only from ThermaSol. No irritating steam lags or bursts.

**State-of-the-Art Controls**
Channeling capacitive touch technology used on mobile devices, the in-shower MicroTouch steam only control allows you to easily control: power on/off, temperature, PowerFlush system or recall your previous steam setting. In addition, the new in-shower ThermaTouch 7” LCD touchscreen controller allows you to control steam, sound and user settings, access Tranquility, operate the Serenity Light, Sound, Rain Head and more.

**Tranquility**
With nine unique scenes to choose from, Thermasol’s Tranquility mode combines imagery and sound themes from nature to help create a totally immersive steam shower experience. Accessed and viewed on ThermaTouch and integrated with Serenity Light, Sound, Rain Head.

**Thermostatically Controlled Steamhead with Integral Aromatherapy Reservoir** (patented)
Only from ThermaSol. This sleek, minimalist design retracts into the shower wall when not in use.

**Water Conservation – The Green Side of Steam**
ThermaSol steam shower units use only one gallon of water to power a 20-minute steam session.

**Superior Style**
The only manufacturer that offers matching controls and steamheads to create a seamless look with virtually any faucet or shower fixture.

**No Upsizing**
ThermaSol generators can be installed up to 50 feet away from the shower without upsizing.

**Simply Sized**
ThermaSol generators are easy to size: LxWxH = Cubic feet. No complicated formulas.

**Available through Authorized Resellers Only**
To ensure product quality and service, ThermaSol products are only available through authorized resellers.
Multi-Sensory Steam Shower Experience

ThermaSol creates an elevated spa experience that touches all of the senses. Delivering chromatherapy, sound therapy and a gentle falling water sensation, the new all-in-one Serenity Light, Sound, Rain Head combines the multi-sensory steam shower experience into one relaxing session. In addition, ThermaSol introduces Tranquility, a new visualization experience to help calm the senses.

Hydrotherapy
For centuries, people have relied on the restorative power of water to soothe pain and remedy illness. Hydrotherapy is the use of steam and vapor to promote the ultimate relaxation. Conventional uses of hydrotherapy have been known to help stimulate circulation, tone body tissues, alleviate pain, relax nerves and enhance overall well-being.

Chromatherapy
This alternative healing method uses color and light to balance energy wherever the body is lacking. The underlying principle is that certain colors, or the absence of colors, can affect your body and mood.

Aromatherapy
Aromatherapy is the use of essential oils that are sourced from aromatic plants and flowers. These oils stimulate the sense of smell and are absorbed through the skin. Rejuvenating scents are believed to improve mood and promote wellness.

Sound Therapy
Music has long been known to affect the mood and aid in relaxation. Studies have shown that listening to music can help slow the heart rate, lower blood pressure and decrease stress levels.

Visualization
Watching tranquil imagery from nature can help create a calm and meditative environment to relax the mind and body.
Experience Tranquility

ThermaSol utilizes the latest technology to create a multi-sensory spa experience unlike any other. The ThermaTouch in-shower 7” LCD touchscreen controller puts complete control of the steam shower environment right at your fingertips. With nine unique scenes to choose from, the Tranquility mode combines imagery and sound themes from nature for a more relaxing steam session.

Cascading Waterfall  Island Getaway  Mountain Stream

Beach Zen  Ocean Voyage  Spring Forest

Crackling Fireplace  Golden Sunset  Spa Lights

Experience Tranquility: ThermaSol.com/Tranquility
NEW ThermaTouch Control

- 7” in-shower LCD touchscreen controller
- Built-in Infrared Temperature Sensor (ITS) patent pending
- Date and time display
- Set steam session temperature
- Set steam shower time sessions
- Set and control preferences for two users
- Recall of previous settings
- Access diagnostic maintenance feature
- Compatible with Solitude Wireless Module
- Tranquility mode*
- Operates Auto PowerFlush™
- Operates with Serenity Light, Sound, Rain Head**
- Built-in Bluetooth®
- Audio settings include volume, treble, mid-range and bass
- Stereo audio output
- Ethernet connection
- Powered by Android™

Additional features if installed with Serenity Light, Sound, Rain Head:
- Tranquility – Pre-programmed natural sounds and visualization scenes with nine relaxing themes
- Shower head with 82 jets**

* Serenity Light, Sound, Rain Head or In-Shower Speakers are required for sound

** Rain head rated at 2.0 GPM; requires separate volume control or diverter port with shut off valve

For more information visit: ThermaSol.com/ThermaTouch
ThermaSol is founded by David Altman, who designs, builds, and installs the first mini-electric steam shower for a luxury Park Avenue apartment with his apprentice, Murray, installed in 1967.

**1968**
ThermaSol's first electric steam shower is installed in a luxury home in California.

**1971**
ThermaSol introduces the first generation ThermaSteam, a steam generating apparatus with water control, including a safety and efficiency feature.

**1977**
ThermaSol moves to Simi Valley, California, a 25,000-square-foot manufacturing facility.

**1979**
ThermaSol introduces the PowerFlush™ system, which features an innovative apparatus engineered to purge calcification build-up from the inner tank.

**1989**
ThermaSol's focus shifts from ThermaSteam to the creation of products, including wall surrounds and whirlpool bathtubs.

**1991**
October 28, 1991: Murray takes over operations of ThermaSol and begins expanding the ThermaSol model with his own designs.

**1993**
ThermaSol launches the first generation ThermaSteam Technology (1993), which produces the precise volume of steam required to maintain the desired room temperature while conserving energy.

**1994**
ThermaSol introduces the first generation ThermaSteam Technology (1994), which produces the precise volume of steam required to maintain the desired room temperature while conserving energy.

**1996**
ThermaSol introduces the FastStart™ system that generates steam in seconds, not 4-8 minutes.

**2001**
ThermaSol debuts its Thermostatically Controlled PowerFlush™ system, which features an innovative apparatus engineered to purge calcification build-up from the inner tank.

**2004**
ThermaSol becomes the first steam manufacturer to offer SmartSteam™, a steam shower's first thermostat that offers total control and ease.

**2005**
ThermaSol becomes the first steam shower manufacturer to include Bluetooth® technology to personal music playlists. The ThermaTouch Basic Steam Shower System™ includes a completely integrated Bluetooth® technology steam shower. ThermaSol introduces the Authorized Reseller Program.

**2006**
ThermaSol develops FastStart™ engine with advanced mobile control applications, which features an easy-to-use control panel and a high-end control system. The system is designed for added safety and efficiency.

**2007**
ThermaSol introduces the ProSeries™ system package, which features a totally integrated Bluetooth® technology steam shower.

**2008**
ThermaSol introduces the All-in-One Steam Shower Package, which features a totally integrated Bluetooth® technology steam shower.

**2011**
ThermaSol’s first steam shower is built into a 30,000-square-foot manufacturing facility in Austin, Texas, the company’s second manufacturing facility.

**2012**
ThermaSol introduces the SteamChime™ technology, which features a totally integrated Bluetooth® technology steam shower.

**2013**
ThermaSol unveils four new faucet styles.

**2014**
ThermaSol unveils the ThermaTouch Modern Thermostatic control, which features innovative expansion capability and an LED display.

**2015**
ThermaSol introduces the SteamChime™ technology, which features a totally integrated Bluetooth® technology steam shower.

**2016**
ThermaSol unveils the SteamChime™ technology, which features a totally integrated Bluetooth® technology steam shower.

**2017**
ThermaSol introduces the SteamChime™ technology, which features a totally integrated Bluetooth® technology steam shower.
ThermaSol is founded by David Altman, who designs, builds and installs the first steam shower to grace a home - a luxury Park Avenue apartment. With his experience, Murray, Altman’s son, joins ThermaSol full-time.

1968

ThermaSol’s North American Patent #3007178 for a combination steam and whirlpool bath system.

1969

Murray Altman’s Patent #5805765 for a self-contained, automatic, mechanically opening steam head.

1970

Murray Altman’s Patent #6505781 for a self-contained, automatic, mechanically opening steam head.

1971

The first steam ambassador, proverbial mascot and steamer of ThermaSol, ThermaSol’s Steam ambassador.

1973

The steam shower experience includes wall surrounds and fragrances and/or medicants.

1974

PowerPak™, a specialty pump designed to generate maximum steam within the smallest footprint.

1975

The steam shower experience includes digital time and temperature controls to the steam shower systems.

1976

ThermaSol launches its first generation whirlpool technology (PRO-HEAT), which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

1977

August 8, 1977

ThermaSol invents the first generation steam shower technology, which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

1989

October 28, 1989

ThermaSol’s focus from the whirlpool market back to steam shower systems.

1991

December 29, 1991

ThermaSol’s first-generation steam shower is locked in with Patent #5250715, which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

1992

February 22, 1992

ThermaSol launches a new generation of steam shower systems.

1993

ThermaSol takes a significant step forward with Mitch Altman’s Patent #5616265 for a steam generating apparatus and method for steam generation.

1994

ThermaSol introduces its Integral Aroma Oil Well.

1996

October 28, 1996

ThermaSol introduces the ProSeries™ steam shower manufacturer to develop a steam manufacturer to develop a steam generating apparatus and steam head.

1997

ThermaSol introduces the first generation whirlpool technology (PRO-HEAT) which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

1998

ThermaSol introduces the first generation steam shower technology, which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

1999

ThermaSol introduces the MicroTouch innovative capacitive touch interface.

2000

ThermaSol launches SmartSteam™ technology that matches the user experience by launching the Serenity Light & Music System.

2001

November 28, 2001

ThermaSol introduces the first generation steam shower technology, which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

2002

February 22, 2002

ThermaSol introduces the first generation steam shower technology, which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

2003

ThermaSol introduces the ThermaTouch 7” LCD touchscreen control with built-in steam shower’s first mobile control application for Apple and Android™ devices, giving users the ability to control everything for Apple and Android™ devices from steam flow and duration to personal music playlists and TV from their mobile control application.

ThermaSol launches the Authorized Reseller Program.

2004

ThermaSol wins the DPHA Good Design Award at the 2004 GOOD DESIGN® Awards ceremony in Chicago.

2005

ThermaSol introduces the Authorized Reseller Program.

2006

ThermaSol unveils the first generation steam shower technology, which prevents the steam shower temperature to maintain the desired temperature while conserving energy.

2007

ThermaSol introduces the PowerFlush™ apparatus and method for steam generation.

2008

May 21, 2008

ThermaSol introduces the ThermaTouch apparatus and method for steam generation.

ThermaSol launches the Authorized Reseller Program.

2009

ThermaSol introduces Bluetooth® technology, allowing the Steam Shower to integrate Bluetooth® technology into their Serenity Light & Music System package.

2010

ThermaSol introduces the Steam Showers of Architecture and Design for OVER 55 YEARS OF STEAM

2011

The ThermaSol Solitude App.

2012

ThermaSol introduces SteamShowers of Architecture and Design for OVER 55 YEARS OF STEAM

2013

ThermaSol unveils four additional control series that match a wide range of faucet styles.

Building a Steam Shower

ThermaSol has taken the guesswork out of the specification process, distilling it down to the four essential steps.

1. **CALCULATE SHOWER SIZE**

   Simple Sizing Formula: \( L \times W \times H = \text{Cubic ft.} \)

   For every foot of ceiling height over 8 ft., use the next larger steam generator. (up to 10 ft.) All interior wall material is irrelevant.

   **EXAMPLE:** \( 4' \times 5' \times 8' = 160 \text{ cubic ft.} \)

2. **CHOOSE A GENERATOR**

   Based on the Simple Sizing Formula \( (L \times W \times H = \text{Cubic ft.}) \), select a steam generator and choose the generator’s location.

   Page 28

3. **CHOOSE CONTROLS + STEAMHEAD**

   Choose control style and spa package.

   Page 35

4. **CHOOSE ACCESSORIES**

   Page 51

ThermaSol’s generators can be placed up to 50 feet from the shower; in an attic, closet or below a sink are ideal locations.

Make sure the walls, ceiling and floor materials are suitable for use with steam. If using acrylic walls, they must be steam rated from their manufacturer. ThermaSol only recommends SSA-ACR generator for acrylic modules.
Choose a Generator

ProSeries™

AF Series
The SmartSteam™ Advantage

The ultimate in temperature control.
Available on ProSeries™ models only

SmartSteam™ produces the precise volume of steam required to maintain your desired room temperature while providing a quiet, relaxed experience. This is accomplished by metering the output of power; the unit only uses enough power to support your requested temperature – no more, no less.

Generators without SmartSteam™ have annoying temperature fluctuations. SmartSteam™ delivers the ultimate in temperature maintenance - without annoying temperature fluctuations! The optimum in user comfort.

Split Tank Technology

Providing constant steam at a constant rate while ensuring trouble free reliability!

How it Works: Water is pre-heated in the water reservoir and passes to the boiling side only at the exact rate of steam production. This highly efficient system delivers uninterrupted boiling, providing constant steam flow at a constant rate... and can’t be found on competitive brands.

PowerFlush

It’s like having your own service technician!

How it Works: PowerFlush was specifically engineered to purge calcification build-up from the inner tank. This unique system uses a combination of household water-line force (40 to 80 lbs.) and specially designed inner tank “speed slots” to increase the water velocity. This concentrated thrust of water pressure effectively sweeps the bottom of the tank, removing build-up.

ProSeries™ Residential Generators  BEST

(Features included with the ProSeries™ Generator are shown below.)

- Lifetime "no questions asked" factory warranty (including PARTS and LABOR)
- 3 year in-home warranty based on material defect
- Patented SmartSteam™ only from ThermaSol
- Digital CAN-bus networked system, intelligent two-way communication only from ThermaSol
- FastStart™ steam in seconds…not minutes (patented)
- Auto PowerFlush™ pressurized inner tank cleaning system
- Constant steam at a constant rate
- Can be plumbed 50 ft. from the shower
- Stainless steel construction
- Stainless steel drain pan
- Superior heating elements - low watt density
- Split tank enhances performance and lifespan
- 208-240 volt plug-in power cord (5ft.)
- Water tight data link cable for control
- Works with Solitude module
- Works with ThermaSol Serenity Light, Sound, Rain Head
- Stainless water flex connector
- Pre-plumbed safety relief valve
- 1/2" union to connect to steam line
- Can service residential rooms from 84 cu.ft. to 850 cu.ft. with one steam unit

Tips:
- The generator ships with a 50’ CAN-bus Cable for the controller and a steamhead rough-in
- You must purchase a control kit in order to complete the steam system
- Available Solitude WiFi Module SWM-2 ($595) with free app download through the App Store or Google Play™
- Operates with voltages between 208VAC & 240VAC
- ThermaSol ProSeries™ generators are unmatched in the steam bath industry...you can't buy better than the BEST!

+ ELECTRICAL REQUIREMENTS: Units over 50 AMP must be hard wired.
‡ Acrylic module must be approved for steam use.
* Three Phase available, contact factory for pricing and availability.
Use copper wire rated at 90º C per NEC.

Simply Sized - Calculate: L x W x H then choose the appropriate model from list above; all interior wall material is irrelevant.

For every foot of ceiling height over 8 ft. use the next larger steam generator.
Ceiling height should not exceed 10 ft.

Tips:

• Lifetime “no questions asked” factory warranty (including PARTS and LABOR)
• 2 year in-home warranty based on material defect
• Digital CAN-bus networked system, intelligent
• FastStart™ steam in seconds…not minutes (patented)
• Auto PowerFlush™ pressurized inner tank cleaning system
• Constant steam at a constant rate
• Can be plumbed 50 ft. from the shower without purchasing a larger kW unit
• Stainless steel construction
• Superior heating elements - low watt density
• Split tank enhances performance and lifespan
• 208-240 volt plug-in power cord (5 ft.)
• Water tight data link cable for control
• Works with Solitude module
• Works with ThermaSol Serenity Light, Sound, Rain Head

Optional Items for the AF Series Generator

Ultimate Steam Shower Package

All available upgrades in one package
For use with Pro and AF Series digital steam shower generators

**NEW**

**ThermaTouch Control**
- In-shower 7” LCD touchscreen controller
- Built-in Infrared Temperature Sensor (ITS) patent pending
- Date and time display
- Set steam session temperature
- Set steam shower time sessions
- Set and control preferences for two users
- Recall of previous settings
- Access diagnostic maintenance feature
- Compatible with Solitude Wireless Module
- Tranquility mode*
  Pre-programmed natural sounds and visualization scenes with nine relaxing themes: Cascading Waterfall, Ocean Voyage, Island Getaway, Golden Sunset, Beach Zen, Crackling Fireplace, Spring Forest and Spa Lights
- Operates Auto PowerFlush™
- Operates with Serenity Light, Sound, Rain Head**
  Serenity Rain Head requires separate volume control or diverter port with shut off valve
- Built-in Bluetooth®
- Audio settings include volume, treble, mid-range and bass
- Stereo audio output
- Ethernet connection
- Powered by Android™

**NEW**

**Serenity Light, Sound, Rain Head**
- Ceiling mounted light, sound and rain head environment system all in a single self-contained module
- Rain head** shower delivers a gentle falling water sensation through two rows of 82 jets
- Create a personal ambiance for the ultimate in relaxation through the creative use of light, sound and visualization
- Total estimated luminous flux at full brightness is 684 lumens
- Preset Chromatherapy mode based on chakras
- Mood Lighting mode generates a soothing spectrum of gradual change
- High-performance trilinear sub-woofer with high frequency drivers and a high efficiency class D amplifier
- Audio settings include volume, treble, mid-range and bass
- Voice Response Feedback
- Two RCA audio inputs
- Compatible with new Solitude WiFi Module 2.0

* Serenity Light, Sound, Rain Head or In-Shower Speakers are required for sound

** Rain head rated at 2.0 GPM; requires separate volume control or diverter port with shut off valve
Ultimate Steam Shower Package  For use with Pro and AF Series digital steam shower generators

A  Serenity Light, Sound, Rain Head
A self-contained light, sound and rain head module mounted into the shower ceiling that provides a unique combination of high-performance LED colors, as well as sound delivered via speakers and a rain spray – all controlled by ThermaTouch. (Rain head rated at 2.0 GPM requires separate shower mixer and diverter port with shut off valve – not provided by ThermaSol.)

B  ThermaTouch Control (inside shower - required)
A 7” LCD touchscreen that controls steam shower functions; with Serenity, users can control light and sound; Tranquility mode includes pre-programmed natural sounds with nine relaxing themes; includes built-in Bluetooth®, stereo audio output and Ethernet connection.

C  NoTouch™ Steamhead
Whisper quiet retractable steamhead with integral aromatherapy well.

D  Easy Start Control (outside shower - optional)
Starts the steam shower from outside the steam enclosure – up to 50 ft. away. Works with the Signature or ThermaTouch control.

E  ThermaSol's Essential Oils
Elevates steam bathing experience to a higher level of complete renewal.

Technology and the complete luxury spa experience truly go hand-in-hand. This is the guiding principle behind every ThermaSol product, and the company’s Solitude Mobile Application is no exception. As the steam shower’s first and only mobile control app, Solitude literally puts the ThermaSol steam shower system and the entire Web in the palm of your hands via Apple or Android™ mobile devices.

**Key Features**

- Available for download through the App Store and Google Play™
- Compatible with Apple iOS 4.3 and up; Android™ 2.2 and up
- Control the ThermaSol steam shower system or Bluetooth® enabled Serenity Light, Sound, Rain Head system from an array of smartphone and tablet devices
- Set and control steam shower preferences for multiple users
- Remotely activate steam and monitor current room temperature from anywhere within the home’s WiFi range
- Select from a dozen light settings, ranging from a soothing mood light or bright shower light to preset chromatherapy chakras for the ultimate personal shower experience
- Set steam shower time sessions
- Set desired steam session temperature
- Adjust volume in light and music mode
- Adjust bass, midrange and treble with the built-in equalizer
- Access all available diagnostic and maintenance features of ThermaSol products

Low voltage - Only 12 volts at mirror

Fog-Free Mirrors are not only convenient and practical; they make a great design statement in any bathroom. Eclipse, Cupola and Avant feature a one-inch beveled edge, Rhombus features a polished plain edge.

Whether it be a new construction or remodeling project or an existing bathroom or shower, the tastefully understated Fog-Free Mirrors are amazingly simple to install. Safe, convenient and a functional design element.

Available in 4 distinctive designs: Avant, Rhombus, Eclipse, and Cupola.

## Accessory Tips:

- Fog-Free Mirrors can be installed inside or outside the shower
- You will need to wire it to an electrical on/off switch or a timer
- Mirrors hang only 7/8” off of the wall
**ThermaSol Shower Seats**

New ThermaSol Shower Seats allow you to rest comfortably while enjoying the tranquil warmth and relaxation of steam.

**Durable**
Brazilian Walnut is three times stronger than Teak and naturally resistant to moisture, mildew and decay.

**Secure**
With ADA compliant structural strength capable of supporting up to 500 pounds, these seats can stand up to the pressure.

**Convenient**
A slim 3” profile when folded keeps the seat safely out of the way when not in use.

**Key Features**
- Aluminum Frame
- Made from durable Brazilian Walnut wood
- Concealed mounting hardware
- Slim 3” profile when folded
- ADA compliant structural strength
- 1 Year Warranty
- Supports up to 500 lbs.
- Gray Powder Coat Finish
- Made in Canada

**Refreshing and Therapeutic Hydrosols**
Our truly refreshing and therapeutic Bulgarian Rose Hydrosol and French Lavender Mist gently hydrate, soothe and nourish your skin. Made from only the richest, 100% organic plants in the world, ThermaSol’s body sprays are antibacterial and help restore and protect the natural PH balance of your skin.

Our pure and gentle Rose Hydrosol is the authentic and genuine co-product of rose distillation – not just rose-scented water. Our relaxing Lavender Mist is made from authentic, organic lavender angustifolia from Provence, France.

Do not use these products unless you have consulted with your doctor and received written permission to do so. Use of these products may be hazardous to your health. Never attempt to fill aroma reservoir on the steam head when unit is in the “ON” position. Severe burns will occur.
Aromatherapy for the Mind and Body

ThermaSol’s Essential Oils elevate the home spa experience to a higher level of complete renewal. Offered in a multitude of invigorating, calming and rejuvenating scents, our Essential Oils are 100% organic and sourced from plants and flowers from around the world. Simply add two to four drops of these aromatic oils to the steam head reservoir in the steam shower and enjoy the ultimate aromatherapy.

Everything you knew about commercial steam shower equipment is now obsolete!

- New industrial grade commercial generators; a game changer in commercial steam shower equipment!
- Lower maintenance costs; industry’s first and only 100% Solid State CAN-bus Digital System
- Significant energy savings with our Patented SmartSteam™ Technology and superior comfort
- The safest technology, open to the atmosphere; competitive units are pressure boilers
- All system components come packaged together for ease of ordering and eliminating errors
- Fully programmable digital control system with noteworthy new functions and easy to use
- 7 day programmability: time, low and high sets for temperature, cleaning and optimized for day-to-day club settings
- PowerFlush; inner-tank cleaning system, automated pressurized decalcification system eliminates sediment build-up
- Stainless steel split-tank design adds longevity by separating the heating function from the water feed function
- Constant steam at a constant rate: no irritating steam lags or bursts
- Superior ThermaSol Heating Elements: a level of corrosion resistance far superior to copper, brass or stainless steel
- On Demand Steam; Mechanical Timer included
- Heavy Duty Industrial Plug and receptacle with 6’ cord (included)
- Built-in rollers for easy installation and servicing
- 1 year parts and labor in-field warranty, 5 years at factory
- The only 2nd generation commercial equipment worldwide

Tips:

- Open to the atmosphere vessel, the safest technology, not a pressure boiler system
- Same price for 240VAC or 480VAC installation
- NeverDown program ensures your steam room is always up and running, call 800.776.0711 for program details
- Reprogramming settings is never a worry; they are retained should there be a power failure or a NeverDown unit installed

Simply Sized

1. Calculate: L x W x H.
2. Choose the appropriate model from above; all interior wall material is irrelevant.
3. To build a superior steam room, ceiling height should not exceed 8 ft.

For every foot of ceiling height over 8 ft. use the next larger steam generator. Ceiling height should not exceed 10 ft.

In the rich tradition of Authentic Finnish Steam Saunas

Surrender to the spell of an age-old tradition of Finland – the sauna. Richly handcrafted, a ThermaSol sauna is a valued addition, distinctive, classically beautiful and a rewarding journey into the past. Why settle for an imitation when you can have an original?

Your Sauna is only as good as its heater!

The heater is the foundation upon which your sauna is built. The cold hard facts are, without two vital components, a large rock capacity and rocks in direct contact with the elements, you will not have a genuine Finnish sauna.

ThermaSol sets the standard by using only “peridotite” or “konno” rocks imported from Finland. And yes, the rocks are in direct contact with the elements. This direct contact of rocks and heating elements results in a soft, diffused heat source. Contrary to what you may have heard, water being ladled onto the rocks to create steam is a vital part of the sauna experience.

ThermaSol Sauna Heaters are manufactured with these outstanding features:

- Triple wall construction for safety
- Stainless steel elements that resist corrosion for longevity
- Built-in control located on heater
- Stones included peridotite (igneous type stone similar to granite) - 50 lb. box

We're Here to Assist You in Designing a Home Spa

Creating a home steam shower environment is easier than you think. We employ a large number of experienced customer service professionals to answer your questions – both before and after your purchase – either by phone, in person or via email. Installation instructions for all of our models are conveniently located on our website in PDF format for your review. We also have a facility-trained field support staff that aids in the development of each home spa, no matter what query.

Please contact us at phone: 800.776.0711  fax: 800.556.5257
www.thermasol.com

WARNING: Always have shower closed when steam shower is operating.

Do not use this product unless you have consulted with your doctor and received written permission to do so. Use of this product may be hazardous to your health.

Never attempt to fill aroma reservoir on the steamhead when unit is in the “ON” position. Severe burns will occur.

Steam is HOT! Do not touch or go near the steamhead from the time the unit is “ON”, up to one hour after it has shut off. Severe burns will occur if you come in contact with the steamhead or steam emitting from the steamhead.

Your shower may be a slip and fall hazard. Check with your contractor or flooring manufacturer regarding the safe use of your flooring in a steam application. Slipping and falling into the steamhead itself or into the stream of steam emitting from the steamhead will cause serious burns, or physical injury.

If you are feeling dizzy, faint or starting to fall asleep immediately exit the steam room.

Do not use steam room under the influence of alcohol or drugs, as this can be hazardous to your health.

Do not use aromatherapy oils or skin care products or any product in conjunction with your steam unit without consulting with your allergist or doctor before use. These products may be hazardous to your health.

Do not use steam room if you are under the age of 16 unless you are supervised by an adult.

Specifications and prices are subject to change without notice. All prices shown are in US dollars. All products must be installed in accordance with installation instructions provided. Failure to do so may invalidate warranty at manufacturer’s discretion. After January, 2011 please confirm pricing. Terms: All orders NET 30. Minimum order - $15.00. All Sauna Equipment FOB Factory. All Steam Equipment FOB California Restocking charge of 15% for pre-approved returned merchandise. All returns require a ThermaSol RMA number.
