**Audio Out** | 3.5mm jack connections

**Power Supply** | ThermaSol PDM (included)

**Display** | 10" Wide LCD Touch Screen

## INSTALLATION NOTES

- Refer to ThermaSol installation Instructions Doc No. 81300 for complete instructions.
- Requires wall cut out opening of 10" Wide X 6.625" High X 3.5" Deep.
- Ensure 3-1/2" clearance around all sides of the mud ring cutout for controller clearance from walls or fixtures
- Use Mud Ring for Tile installation and ThermaTouch Control placement (04-8567).
- Ensure 3-1/2" clearance behind the rear of the control for cable clearance.
- The control should be installed 60 inches from the floor and as far from the steam outlet as possible.

\* Replace -XX with the desired finish in the above finish chart.

## SPECIFICATIONS – SteamVection Steam Head

Construction..... Brass  
Aromatherapy..... Integral Reservoir

### Installation Notes:

The steam head should be installed 24 inches from the floor, and 6 inches from any corner, inside the shower only, and as far away from the controller and shower fixtures as possible.

The steam head housing requires a 1-1/8" hole in the shower wall, and must be flush with the finished wall and sealed to the wall to not allow vapor or water behind it. Use 1/2" copper fittings to attach the housing to the steam outlet. See the full steam head housing instructions within your generator installation guide.

### Product Specification:

The steam head shall be approximately 1.75" x 1.75" in the square version, and a 1.75" Dia. For the round version. The steam head is made from brass alloy and includes an aromatherapy well.

### Finish Chart:

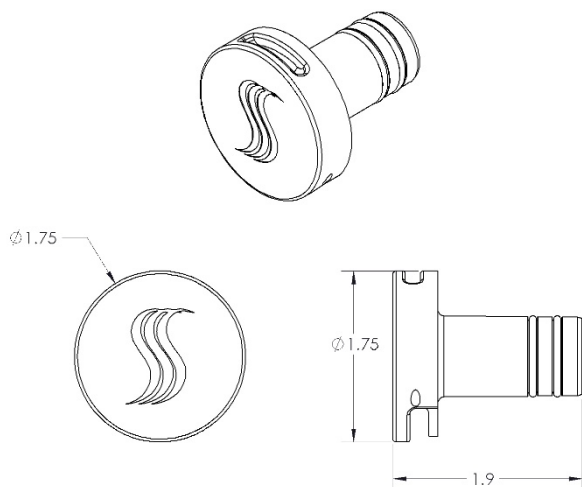

Select desired finish and replace XX with code. No-Touch Aromatherapy steam head and control finishes.
